

Quality Policy

The leadership of the Department of Economic Development seeks to confirm its commitment to the implementation of the Quality Management System which is compliant with the international standard ISO 9001:2015. This shall be fulfilled through better implementation of the quality policy which includes the following items:

- Understand the institutional context and the internal and external work environment and the needs of all concerned parties and to work on implementing the same.
- Periodic update of the Department's strategy and measure its performance through a number of strategic and operational goals.
- Periodic review of the Department's tasks and ensure that it carries out such tasks.
- Effective communication with all employees and the concerned regarding the quality policy's content.

And to better understand the institutional context, the Department's leadership believes that the quality policy should also include:

Vision:
